## iOS Developer

## EXPERIENCE

**2020 – 2023**      **iOS developer at TBC bank**

[TBC Bank](#) – Worked in the agile transfers and payments team. Created significant features like international transfer, scanning IBAN with Vision, quick buttons on transfers, and more. Initiated several successful chapter activities.

**2019 – 2020**      **iOS developer at Wandio**

[Halyk Bank Georgia](#) – Created this banking application from scratch with a team of iOS developers.

[Biliki – No Bad Trips](#) – Developed individually from scratch and delivered on the App Store. Used Maps.me for clustering, navigation and offline maps and Core Data for persistence.

[Cashback 365](#) – Handed the application, added features: map, clustering with Google map, dynamic loading and delivered on the App Store.

**2018 – 2019**      **iOS developer at Leavingstone**

[Uvno](#) – Created and delivered on the App Store individually.

**2017 – 2018**      **Data scientist at Bank of Georgia**

**2014 – 2015**      **iOS developer at Nextep**

**2013 – 2014**      **Section leader at Free university**
